American Cyber Awarded Prime Contract on Army's \$12.1 Billion, 9-Year ITES-3S IDIQ

CLIFTON, VA – American Cyber is proud to announce that it was selected as one of the small business awardees for the U.S. Army's Information Technology Enterprise Solutions - 3 Services (ITES-3S) Indefinite Delivery/Indefinite Quantity (IDIQ) contract. The Army's Program Executive Office for Enterprise Information Systems (PEO EIS) developed ITES-3S as the service contract complement to the Army's ITES-3H and ITES-SW multi-award IDIQs for hardware and software solutions, respectively. ITES-3S was awarded by the PEO EIS Computer Hardware, Enterprise Software and Solutions (CHES) organization and the Army Contracting Command - Rock Island (ACC-RI) to provide enterprise IT services that include cybersecurity; information technology services; enterprise design, integration and consolidation; network/systems operation and maintenance; telecommunications/systems operation and maintenance; business process reengineering; IT supply chain management; purchasing; and IT education and training. The ITES-3S contract is available for use by all other DoD and Federal agencies to support any worldwide location, including warzones.

"We are very excited with this award as it accentuates our continuing commitment to optimally serve the U.S. Army, DoD and Federal agency information technology and cyber missions." said Laurie Winkler, CEO of American Cyber.

About American Cyber

American Cyber is an award-winning Women-Owned Small Business supporting U.S. Government projects across the globe by identifying, implementing, and integrating leading-edge technology solutions. American Cyber serves customers with a quality and process-based focus per the company's International Standard Organization (ISO) Certifications in Quality Management, Information Technology Services Management, Information Security Management, and CMMI Level 3 rating for Services.
